

Wyre Forest Green Alliance invites you to "SustFest" from 30th April - 15th May 2022.

The theme for the Festival is "Greener, Happier, Healthier" which should cover a wide range of events which bring people together and which you feel are important to your community.

We hope that you will join us by putting on an event such as a talk, film show, open day, activity, walk, performance or fete during these 2 weeks.

At this stage we are just asking you to let us know if you already have an event in mind or if you might consider taking part. Just email sustfestwyreforest@gmail.com to register your interest.

You may already have a suitable activity on your programme for next year or you might consider putting on something specially in order to promote your organisation and to help your community become more resilient and work towards a greener, happier and healthier future. The "One Planet Principles" available on this site, may help you plan your event.

The aim is that this festival is community led, with WFGA providing support by promoting your event through a printed programme, press releases, posters, social media, radio interviews etc. We do not intend to make a charge to participating organisations.

You will find further information in the FAQs also available on this site.

Please email sustfestwyreforest@gmail.com to register your interest whether you have an event in mind or are just considering taking part.
